

PHILOSOPHY

Nurses working in Primary Care are frequently requested to see patients with excessive wax. This study day gives the practitioner a knowledge and understanding of safe wax removal

ADVANTAGES

- ✓ Taught in the primary setting by specialist nurses with extensive primary care and ENT practical experience
- ✓ Enables nurses to take a more active role in the prevention of ear problems.

Winners: Care of Older People
Nursing Times Award 2017

Highly Commended: Innovation in your Speciality,
Nursing Times Award 2009
